EDUCATION

VIT Bhopal University

B.Tech. Computer Science

June 2026

Current CGPA: 7.91/10

Jay Yogeshwar Madh. & Uccha Madh. Vidyalaya

June 2022

87.5%

SKILLS

Languages: Java, JavaScript, HTML, CSS, C/C++, MySQL, Python

Tools: Git/GitHub, VS Code, IntelliJ IDEA

Frameworks: Node.js, React, Bootstrap

CERTIFICATES

The Complete Full-Stack Web Development Bootcamp | *Udemy*, **Cloud Computing** | *NPTEL(IIT Kharagpur)*, **IBM AI Engineering** | *Coursera*, **Python Essentials** | *Vityarthi*, **Data Structures in C++** | *Coding Ninjas*, **Introduction to C++** | *Coding Ninjas*

PROJECTS

Igniters Club Website | *HTML, CSS, JavaScript, Bootstrap, UI/UX, Responsive Design* | [View Project](#) March 2025

- Designed and developed an interactive, mobile-responsive website for the official tech club of VIT Bhopal.
- Showcased club initiatives, events, team, and contact info using clean UI components and intuitive navigation.
- Utilized Bootstrap for consistent styling and JavaScript for enhanced interactivity and dynamic content.

Discord Bot: ChattyCat | *Python, discord.py, APIs, Cloud Hosting* | [View Project](#) Nov. 2024

- Developed a feature-rich Discord bot named ChattyCat to enhance server engagement and utility.
- Implemented various commands including weather updates, AI image generation, music and GIF search, and poll creation to add functionality and interactivity.
- Integrated multiple APIs like Hugging Face, YouTube Data API, WeatherAPI, and Tenor API for diverse bot capabilities such as real-time updates, AI art generation, and multimedia search.

Smart Watering System | *Arduino, ESP32, IoT, Sensors, Data Analytics, Cloud Integration, VS Code* Oct 2024

- Designed an IoT-based irrigation system to optimize water usage using real-time sensor data.
- Automated control based on soil moisture and weather conditions for precision irrigation.
- Integrated cloud platforms for real-time monitoring, data analytics, and decision-making.

EXPERIENCE

India Space Lab | *Space Tech Intern* Dec. 2024 – Jan. 2025

Gaining practical experience in space technology through training on drones, satellites, and astronomy, while exploring innovative approaches in space entrepreneurship.

Igniters Club | *Media & Photography Team Co-lead* June. 2024 – Present

Contributing to initiatives that enhance and democratize learning and hiring through innovative interactions and interventions.

HOBBIES

Volleyball 2018 – 2023

Secured runner-up position in Inter-Branch Volleyball competition in “AARAMBH ‘22 Sports Tournament”

Video Editing 2022 – Present

Editing videos for Igniters Club and my social media account
